Tenafly, NJ | +1 201-481-4500 | ht497@cornell.edu | U.S. Permanent Resident

EDUCATION

Cornell University, College of Arts and Sciences | GPA: 3.70

Ithaca, NY

Bachelor of Arts in Economics | *Minor in Data Science, Business*

Expected December 2027

Relevant Coursework: Micro & Macroeconomics, Financial Accounting, Probability Models, Data Science, Calculus

WORK EXPERIENCE

PricewaterhouseCoopers (PwC)

Seoul, Korea

Consulting Intern - Industrials

Oct 2025 – Dec 2025

- Analyzed manufacturing pain points at Hanwha Aerospace and pitched digital transformation initiatives by redesigning ERP–MES–PLM architecture with digital thread integration to reduce data silos across global production operations
- Identified gaps in global IT coordination and defense data security by benchmarking U.S. defense firms' ITAR-aligned security frameworks (e.g., SIEM-based monitoring) to address the absence of equivalent standards in Korea
- Advised on MRO (Maintenance, Repair, and Overhaul) business expansion by designing an operating model for overseas facilities, including workforce strategy (local vs. expatriate), organizational structure, and agile team setup

Ernst & Young (EY)

Seoul, Korea

Audit Intern

July 2025 – Aug 2025

- Executed roll-forward and prior-year balance tie-outs, leveraging SEC EDGAR filings to validate consistency of prior-period figures across financial statements, footnotes, and Management Discussion & Analysis (MD&A) sections
- Performed detailed calculation verification to ensure numerical accuracy across financial statements
- Verified hard copy references and audit evidence, cross-checking numbers between financial reports, lead schedules, and source documents to validate audit assertions

The First Appraisal & Consulting, Ltd

Seoul, Korea

Real Estate Appraisal Intern

May 2025 – July 2025

- Completed site inspections of office, retail, and mixed-use assets, evaluating building condition, tenant composition, surrounding commercial activity, and transportation access to support property valuation reports
- Executed 30+ desktop due diligence by verifying property existence, cross-checking construction history and building specifications against public records, and reconciling transaction and rental data to support valuation accuracy
- Reviewed loan balances and borrower financials to estimate collateral value under potential foreclosure scenarios

PROJECTS

Strategic Acquisition Analysis

Seoul, Korea

Independent Project

Oct 2025 – Dec 2025

- Proactively discussed with the CEO of Applr, a Korean video-commerce technology company, and assessed its strategic value to prospective acquirers through analysis of its technology portfolio, business model, and market positioning
- Developed acquisition theses for prospective strategic buyers by assessing commercialization opportunities and evaluating how Applr's technology could support new revenue streams through AI automation and digital transformation initiatives
- Formulated value creation and synergy hypotheses for commerce & retail buyers through market and strategic fit analysis

EXTRACURRICULAR ACTIVITIES

Scholars of Finance

Ithaca, NY

Junior Analyst

Jan 2025 – Present

- Addressed Planet Fitness's market entry strategy in Riverton, WY by analyzing median household income and gym competition, recommending expansion projected to capture 1,500+ members and generate \$200K–\$400K annual revenue
- Evaluated three expansion scenarios (delay, partnership, direct entry), highlighting trade-offs in cost, control, and brand equity, and recommending a \$1.4M direct investment projected to achieve 30–35% EBITDA margins within three years
- Built financial model and presentation forecasting 30–36 month breakeven and recurring cash flows using MS Excel

Cornell Real Estate Club (CREC)

Ithaca, NY

Analyst

Jan 2025 – Present

- Diagnosed underperformance of a 120-key San Francisco hotel and evaluated strategic alternatives through market analysis, competitive benchmarking, and SWOT assessment to determine the optimal hold vs. sell strategy
- Developed and presented a \$545K value-add renovation plan supported by a 10-year pro forma, projecting ~\$5.0M NPV
